(864) 984-2589 LOWRYMECHANICAL.COM

LOWRY MECHANICAL IS AN EXPERIENCED MECHANICAL CONTRACTOR WITH EXPERTISE IN HVAC, UTILITY & PROCESS PIPING, SPECIALTY FABRICATION, SERVICE AND MAINTENANCE.

Established in 1978, Lowry Mechanical has over four decades of commercial and industrial contracting experience and serves clients throughout the Midlands and Upstate of South Carolina.

Historically Lowry Mechanical's focus has been on the industrial market. In recent years the company's market has expanded to include commercial, institutional and medical facilities.

Through our reputation as an experienced and dependable contractor, we have built many close relationships with our customers. We are proud that a large portion of our business is from repeat clients. Attention to detail, quality workmanship, and focus on customer needs have established Lowry Mechanical to be the contractor of choice.

Whether your needs are design-build, facility upgrades, plant maintenance, or shut-down projects, Lowry Mechanical's dedication to excellence, experience, and competent staff can assure you that your next project will be completed promptly and successfully.

WE ARE PROBLEM SOLVERS.

One of the main points of feedback we get at Lowry Mechanical is how valuable customers find us in terms of helping solve their problems. Whether it involves solving nagging HVAC issues, squeezing out additional operating capacity from limited space, creatively achieving other objectives or simply delivering a comfort system within your budget – **our project leaders bring over 200 years of practical experience to the table and put it to work for YOU.**

WE ARE RESPONSIVE.

Mechanical projects are our business and we understand the dynamics that come with them. Whether it's the emergency **"NOW!"** item or future facility planning, you'll find we understand your situation and can quickly get you what you need. Our customers often praise our team's urgency and service-minded approach. When it comes to the actual work, we utilize multiple work teams, a full metal fabrication shop and a fleet of our own trucks and equipment that ensure the flexibility to react to you and your project needs.

WE ARE ACCOUNTABLE.

Your objective is our objective and we aren't done until you are satisfied. Period. We will apply the best work standards in the industry every time; whether you recognize the difference or not. This approach makes it easy for us to stand behind our work, and easy for our customers to be confident their job was done well. In the contracting business, that is more uncommon than it should be. Our history proves we are in it for the long-haul and we view each project as a potential long-term relationship.

OUR REPUTATION IS EVERYTHING.

You don't maintain a stellar reputation for 40+ years in the construction industry without taking care of customers and consistently doing the job right. We are proud, and thankful, to attribute a large portion of our annual business to repeat customers for this very reason. From your first interaction with us until we leave your worksite, the quality of our people and our work will reaffirm your choice in utilizing Lowry Mechanical. We'll do your job right and we'll stand behind it. Go ahead, ask around.

- ▶ **Responsive, Expert Service**
- ▶ **24/7/365 Service for All Brands & Situations**
- ▶ **Custom Preventive Maintenance Agreements**
- ▶ **Factory Start-Up & Warranty Service**
- ▶ **Refrigerant Recovery & Recycling**

EXPERIENCE COUNTS.

Lowry Mechanical builds relationships that last. We are fortunate to become a trusted partner with most customers, and no matter the project or issue, our vast experience makes the difference. Contact us today and let us earn your business for life.
